

FREE STANDING HORIZONTAL WITHOUT SUMP

Free Standing Horizontal Tanks are selected when transportable (non-DOT regulated) containment is required for indoor or outdoor applications. Tanks are equipped with molded-in legs to support the tank and band/hoop locators for tie down. Tanks are manufactured from medium- or high-density polyethylene with UV inhibitors and designed for containment of liquids of up to 1.7 specific gravity. Tank walls are translucent for level viewing and equipped with gallon indicators.

Baffles

Ace Roto-Mold has developed a unique baffle system that is easy to install and clean. These baffles help to reduce fluid sloshing. Baffle systems come standard in some tanks and offered as an option for others.

Poly baffles for fluid control are inserted through the lid and installed prior to shipment.

ROUND HORIZONTAL TANKS

Round Horizontal Tanks are selected when transportable (non-DOT regulated) containment is required for indoor or outdoor applications. Tanks require cradles and bands to support the round bottom. All tanks are equipped with drain out sumps. Tanks are manufactured from medium-density polyethylene with UV inhibitors and designed for containment of liquids of up to 1.7 specific gravity. Tank walls are translucent for level viewing and equipped with gallon indicators.
